2001 Chris-Craft Launch 22

LENGTH 22' 0"	YEAR 2001	MAKE Chris-Craft
CLASS Bowrider	TYPE Power	LOCATION Johns Island, SC, US

ABOUT THIS VESSEL

This 22 ft Chris Craft Launch has been well maintained and boat shed kept its entire life. Powered by the Volvo Penta 5.7 GSi, it’s got plenty of get up and go and an economical fuel burn at cruising speed. Plenty of seating forward and aft, you’ll have no problem taking the whole family out for an incredible day on the water.

FRESH WATER MOSTLY AND SOME BRACKISH WATER USE

STORED INDOORS

VIDEO IS OF A SISTER SHIP

Financing Available for any year boat. World Wide Delivery available.

Additional Information

A fiberglass composite is generally better for a boat hull. Instead of being a single thick layer of solid fiberglass, a composite uses a lightweight core material (like foam or balsa wood) sandwiched between fiberglass layers. This creates a lighter, stiffer, and more fuel-efficient vessel.

A solid fiberglass hull ("straight fiberglass") is heavy, which can make the boat sluggish and increase fuel consumption. However, solid fiberglass is highly durable and very affordable, making it a popular choice for budget-friendly boats or heavy-duty workboats.
