ABOUT THIS VESSEL

This 411 Meridian Sedan FRESH WATER ONLY YACHT with her wide-open floor plan ensures smooth flow and unbroken lines of sight between the salon, the yacht's dedicated dinette and the full-service galley. What's more, Meridian has further enhanced its signature integrated two-tier window system to ensure improved visibility from all these interior areas.

Plus the 411's impressive two-stateroom, two-head layout provides a gracious master suite, located forward with a queen-size island berth with innerspring pillowtop mattress. The master head shower has a custom teak seat. The spacious amidship guest stateroom, which spans the yacht's beam, features a double berth, thoughtfully appointed vanity and settee and plenty of storage including cedar lined closets.

Manufacturer Provided Description

The Meridian 411 Sedan has overnight accommodations for six people with a spacious master stateroom, featuring an optional entertainment system with 15-inch LCD TV and standard pillowtop innerspring mattress; a guest stateroom with a pillowtop innerspring mattress; and a dinette that converts to a comfortable bed.

Like all Meridian yachts, the wide-open salon features premium gloss cherry wood finish, plush cut-pile carpeting, and a layout that features living-room-style seating for everyone. Generous storage guarantees maximum convenience for lengthy stays on board, and if you're shorthanded, the broad side decks and molded-in steps between cockpit and bridge ensure that a couple can handle this 46-foot yacht with ease.

What's more, the 411's large bridge deck offers an optional entertainment system with Sirius satellite radio and the latest in Northstar navigation and communications systems. Add to this package standard underwater exhaust, and you've got the best and most versatile cruising yacht in its class.

Docking On Command Exclusive only to Meridian Yachts

The Meridian line of sedans and motoryachts is the only builder in the world that has what is known as “Docking On Command.” This is a clever control system by which the skipper can activate the boat’s bow thruster, stern thruster, or both at the same time to dock the boat. Ever try to dock when there is a cross-current, or a diagonal current sweeping below the pilings? Worse, try entering a narrow canal or marina where clearance is 8” on either side of the boat when the tide is going out! It is at times like those that you will be thrilled to have “Docking On Command” in addition to your main engines.
